Printing Tips: I always recommend using the most-current version of Adobe Reader with my printables to avoid any printing issues. To put the word family flip books together, follow these steps:

1. Print on 8.5x11 paper. If you are printing on a different size, you can select "shrink to printable area" to fit it on the page.
2. Cut the pieces out. You can do this or have the students do this, depending on their scissor skills.
3. Have the students color the pictures and practice reading the words.
4. Each page has a number on it. Start with number 1 and layer each paper on top of each other. Then put the family name on top.
5. Place two staples at the top to complete the flip book.

The wonderful clip art used in this printable is from Whimsy Clips & Creative Clips.
